

Road Closure

After an unusually cold winter, the road leading to Ashridge House has been damaged in different parts and is requiring urgent repair.

Further to the notices posted on the road we wish to explain to you in more detail how the impending road works will impact upon yourselves and to acknowledge the inconvenience this may cause.

We will start these works next Monday the 20th of February and they will progress over an approximate time of 4 weeks depending on weather conditions.

For most of the time, this will mean that you can still use the road but might proceed with caution as parts of the road will be under repair.

Unfortunately, temporary repairs are no longer sufficient for some stretches of our road. Accordingly, this is a much more substantial job, hence the need to close the road between Berkhamsted Ashridge Entrance and Ashridge House for some time.

As follows is the overview of the works taking place:

- **Monday 20th of February until Wednesday 22nd of February**

From 8am to 6pm sections of our road will be inaccessible (see map below). All vehicles wishing to access Ashridge House and any adjacent areas (apart from emergency services) will have to come in from the Little Gaddesden Entrance. Working with these timings we will be able to complete the repairs within 3 days and restore normal access from Wednesday 22nd 6pm.

- **Monday 20th of February until Friday 17th of March**

All sections are accessible with some road works underway. During these times, please proceed with caution.

We apologise for any inconveniences this might cause you and appreciate your understanding to get this situation resolved as swiftly as possible.

If you have any questions, please do email, or call us at the following contact details:

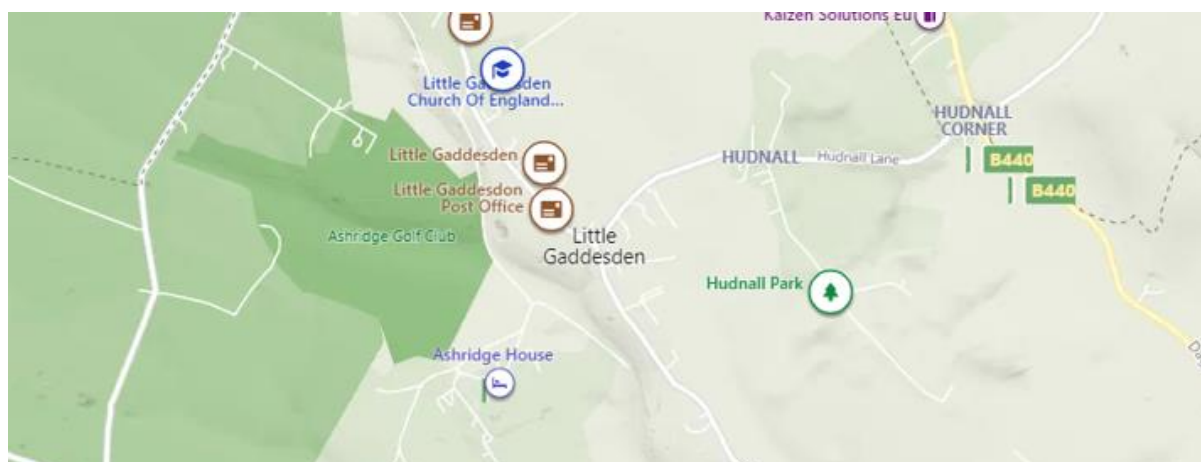

Phone – 01442 843491

Email – concierge@ahsridge.hult.edu

Thank you very much for your cooperation.

Kind Regards

Sandra Bittel
